Center Pointe, through United Way, has been providing recreational, educational, and social activities for people with disabilities in Spokane County since 1953. Those who are secluded from mainstream society are given the chance to learn, achieve, and grow in a barrier-free environment. The Center operates on limited funding with no federal or state aid, making it hard to grow and advance.

Plan your next event with us (Weddings, Meetings, Reunions). Affordable Rates, Self Catering Allowed.
